**Body Style:**

Hole mounted

**Mounting Method:**

Screw

**Product Name:**

Door interlock switch

**Special Features:**

contact gap of 3mm required; conforms to class ii of vde insulation; spec-rated volt 125vac=16no, 380vac=16no, inrush current-nc=30a max, no==30a max, operating frequency-mechanical 300 operations per minute, electrical 60 operations per minute, operating temperature m25c-85c=mechanical servicelife 10, 000, 000 operations per minute; resistive load (a) -16

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A053a0
