Interlock Switch - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5930-01-581-4759

Body Style:
Hole mounted
Mounting Method:
Screw
Product Name:
Door interlock switch
Special Features:
contact gap of 3mm required; conforms to class ii of vde insulation; spec-rated volt 125vac=16no, 380vac=16no, inrush current-nc=30a
max, no==30a max, operating frequency-mechanical 300 operations per minute, electrical 60 operations per minute, operating
temperature m25c-85c=mechanical servicelife 10, 000, 000 operations per minute; resistive load (a) -16
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A053a0
