End Application:

Apem p.O. Box 8288 haverhill, ma 01835-0788

Product Name:

3500 series high performance toggle switches- environmentally sealed

Special Features:

Max current-voltage rating with resistive load and electrical life at full load: see table below; initial contact resistance: 10 mat 1a 2vdc; insulation resistance: 1, 000 m; dielectric strength: 2, 500 vrms 50 hz min. Between terminals 3, 000 vrms 50 hz min. Between terminals and frame; materials, case: mineral filled polyester ul94-v0, bushing and cover: zamac, actuator: brass, nickel or chrome plated, or anodized aluminum, contacts: silver alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A053a0
