End Application:

An/bqq-1 (v) 5 un 4251 ti08, seawolf.

Special Features:

The rotron model 2c airflow switch is actuated by air velocity rather than air pressure. It is designed for easy mounting on the outside of an air duct with a small light weight stainless steel vane protruding through a hole in the duct into the airstream. The switch can be used as interlock for on off purposes or as a marginal safety device where the electrical contacts are operated at a predetermined flow air.
