End Application:

Valve gate 1146-a08v 2.00 in.

Special Features:

Ea530 series limit switches are intended for reliable sensing performance in rugged industrial environments. They have a compact 30mm x 60mm mounting footprint and trip force of 40 in ? Oz., making them ideal for lighter force applications. These compact limit switches have a die cast zinc housing with epoxy paint and positive-acting contacts. They are nema a300 ac and q300 dc rated and ul and csa listed.
