End Application:

Multi-purpose large motor starting or other power applications

Usage Design:

Used to actuate starter styles 512-a-, -b-, and -c- with operating handles 1494f-m1, -p1, -s1

Component Type And Quantity:

2 bracket and 1 spring

Product Name:

Disconnect switch operating mechanism

Special Features:

Neither switch or handle included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A51110
