Reliability Indicator:

Not established

Inclosure Material:

Plastic

Average Life Measurement:

Not rated

End Application:

Operator console qmjrd0002

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Product Name:

3 position selector switch

Special Features:

Mfg description: maintained, 3 position, standard knob, standard orientation, 2 n.O., 2 n.C. Contact bloc (s), standard pack (q type 1) , plastic latch mount.

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
