Thread Direction:

Right-hand single threaded stud

Thread Length:

0.625 inches single threaded stud

Thread Length:

3.250 inches

Temperature Sensing Element Type:

Expanding rod

Width Across Flats:

1.260 inches

Operating Temperature Rating:

165.0 degrees fahrenheit

Mounting Method:

Threaded stud

Features Provided:

Hermetically sealed case

Thread Size:

0.500 inches single threaded stud

Nonpile-up Contact Arrangement:

2 pole, double throw, two positions momentary

Terminal Type:

Wire lead

Product Name:

Pdtd series - temperature switch

Special Features:

Item can withstand acceleration up to 8g and harsh applications; maximum temp is 55 degrees f above set point; maximum pressure is 350 psi

Media For Which Designed:

Liquid

Style Designator:

Cylindrical

Thread Series Designator:

Npt single threaded stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
