Product Name:

Snap-action rotary switches, 16 ampere

Special Features:

Specifications depth 1.53 in; torque 7 lb-in; weight 4.0 oz; voltage (dc) 250v; current carrying capacity 20 a; current switching capacity up to 16 a; initial dielectric withstanding voltage (rms) 2200v max. Contact resistance 20 milliohms, (4 milliohms average initially); min. Insulation resistance 200 m; approximate weight (single pole and section 3.6 oz; approximate weight (additional section) 0.4 oz; mounting hardware supplied, 4 each 0.50 long trusshead screws

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A052b0
