Product Name:

Single axis joystick-series 829

Special Features:

Hall effect sensor; handle type f; rubber boot; center detect switch: switch type: spdt (n0-c-nc), electrical rating: 30vdc/100ma; operational life: 100, 000; activation: on at center off at plus or minus zero from center handle operating angle plus or minus 20 -25 from center position (40 -50)operating force approx. 1 (with standard spring return incorporated) ; max. Applied voltage 10 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A053a0
