| End Application:                     |
|--------------------------------------|
| Osp50 automatic pump                 |
| Terminal Type:                       |
| Connector, plug                      |
| Contact Voltage Rating In Volts:     |
| 115.0 ac at sea level single voltage |
| Product Name:                        |
| Pressure switch                      |
| Special Features:                    |
| 20 foot cord                         |
| Style Designator:                    |
| Cylindrical                          |
| Shelf Life:                          |
| N/a                                  |
| Unit Of Measure:                     |
|                                      |
| Demilitarization:                    |
| No                                   |
| Fiig:                                |
| A048b0                               |
|                                      |
