End Application:

Economical auto-dip switches

Special Features:

Switch contact resistance switch series 210 initial 100 milliohms end of life, max 500 milliohms, materials series 210-gold flash plated beryllium copper contacts, operating temperature -40' c to +85 c switch capacitance 5 pf between adjacent closed switches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
