Body Style:

Panel mount

Body Diameter:

0.562 inches

Body Length:

0.900 inches

Maximum Voltage Rating In Volts:

115.0 ac

Inclosure Type:

Hermetically sealed

Mounting Method:

Screw

Product Name:

Pushbutton switch

Contact Load Current Rating At Maximum Rated Voltage:

10.0 amperes resistive ac

Special Features:

Load: sea level@28vdc; 60/400hz; inductive: 5a; lamp: 3a; motor: 3a; center contact: 3a max; low level: 10ma @ 30mv maximum dc or peak ac; electrical life: 25, 000 cycles; mechanical life: 250, 000 cycles; operating temperature range: -55°C to +85°C; operating force: 2.5 lbs. Or 4.0 lbs.; reset force: 0.75 lb. Or 1.0 lb.; material: case: black anodized aluminum alloy; button: thermoplastic; terminals: brass with silver plate, gold plate for low level; momentary action, sealed, snap-action, double break

Terminal Type And Quantity:

2 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A053a0
