Mounting Method:

Screw lock and screw

Product Name:

Intrinsically safe safe-pak relays amplify sensor load-handling capabilities

Special Features:

temperature 120 degrees f; operating voltag (volts) 200 to 250 vac; turn-on sensitivity (ohms) 400k; turn-off sensitivity (ohms) 1m; load current 5 amps; output leakage current 6 ma@ 120 vac; load voltage 200 to 250 vac; protection intrinsically safe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A562z0
