Body Style:

Hole mounted

Actuator Roller Diameter:

0.75 inches

Actuator Roller Width:

0.31 inches

Actuator Adapter Style:

Roller arm

Housing Height:

3.66 inches

Housing Length:

2.56 inches

Housing Width:

2.02 inches

Center To Center Distance Between Housing Mounting Facilities Parallel To Height:

2.06 inches

Center To Center Distance Between Housing Mounting Facilities Parallel To Length:

2.75 inches

Maximum Voltage Rating In Volts:

250.0 ac

End Application:

Switch, limit

Inclosure Type:

Fully enclosed

Mounting Method:

Threaded hole

Product Name:

Switch, limit

Actuator Movement:

25.0 overtravel degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A053a0
