Body Style:

Straight shape

Overall Length:

2.990 inches

Overall Height:

0.740 inches

Overall Width:

0.400 inches

Unthreaded Mounting Hole Diameter:

Between 0.127 inches and 0.133 inches

Distance Between Mounting Facility Centers:

2.730 inches

Mating End Quantity:

1

Contact Position Arrangement Style:

2 rows of contacts non-inserted board single mating end

Connector Locking Method:

Friction

Insert Material:

Plastic diallyl phthalate and glass fiber single mating end

Insert Material Specification:

Mil-m-14f, type sgd-f military specification all material responses single mating end

Special Features:

Two holes for guide pin and guide socket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0

Mil-std (military Standard):

Mil-m-14f spec.
