Electrical Receptacle Connector - Page 1 of 1

No
Demilitarization:
Unit Of Measure:
N/a
3 type Shelf Life:
Specification Or Standard:
and performance requirements and test conditions that are shown as "typical", "average", "", etc.).
excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental
95542-114-230 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format;
Test Data Document: 05542-114-220 appointed (includes angineering type bulleting, breehurs), etc., that reflect appointed type data in appointed format:
Included Contact Type: Round socket single mating end single contact grouping
37 single mating end single contact grouping
Mil-m-19833, type gdi-30f military specification single material response single mating end Included Contact Quantity:
Insert Material Specification: Mil m 10933, type add 30f military specification single material response single mating and
Qq-p-416, type 2, class 2 federal specification single treatment response
Shell Surface Treatment Specification:
Shell Surface Treatment: Cadmium
Stainless steel Shall Surface Treatment:
Crimp single mating end single contact grouping Shell Material:
Terminal Type: Crimp single mating and single centact grouping
Plastic diallyl phthalate single mating end Terminal Type:
Back single mating end single contact grouping Insert Material:
Terminal Location: Peak single meting and single contact grouping
5.0 single mating end single contact grouping
Contact Maximum Current Rating In Amps:
Removable single mating end single contact grouping
Contact Removability:
1 Contract Powershilling
Mating End Quantity:
Heat resistant and moisture resistant and salt water resistant
Environmental Protection:
