Electrical Receptacle Connector - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5935-00-413-1327

# Threaded Device Type:

Coupling facility

# Mating End Quantity:

1

# Contact Removability:

Nonremovable single mating end all contact groupings

## **Contact Maximum Current Rating In Amps:**

7.5 single mating end all contact groupings

## **Connector Locking Method:**

Jackscrew-socket

#### **Contact Material:**

Copper alloy single mating end all contact groupings

## **Contact Surface Treatment:**

Gold single mating end all contact groupings

## Criticality Code Justification:

Zzzy

## Included Contact Quantity:

26 single mating end single contact grouping

#### Included Contact Type:

Round pin single mating end all contact groupings

# **Reference Number Differentiating Characteristics:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

#### Unit Of Measure:

---

#### Demilitarization:

No

Fiig:

A039b0
