Overall Length:

2.840 inches

Overall Height:

2.000 inches

Overall Width:

2.500 inches

Component Quantity:

1 and 1

Component Controlling Agency:

Naval ordnance systems command; department of defense

Component Name:

Connector, plug, electrical; connector, receptacle, electrical

Component Identifying Number:

1273049 part no. And ms35169-89c part no.

Component National Stock Number:

5935-00-587-1301

Criticality Code Justification:

Feat

Special Features:

Rg-141/u coaxial cable used to connect components; grounding terminal from pin 32 of plug to outside of shell

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-b
