Body Material:

Plastic

Fabrication Method:

Molded

Body Mounting Hole Accommodation Diameter:

0.289 inches

Mounting Hole Style:

Round, body

Specific Equipment Accommodated:

Semiconductor device

Contact Material:

Copper alloy

Contact Surface Treatment:

Gold

Accommodated Contact Quantity:

4

Mounting Method:

Press fit

Mounting Type For Which Designed:

Chassis

Precious Material And Location:

Contact surfaces gold

Precious Material And Weight:

0.020 gold grains, troy

Precious Material:

Gold

Terminal Type And Quantity:

4 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02300
