Body Material:

Fiber and glass, epoxy

Body Style:

Rectangular

Fabrication Method:

Laminated

Overall Length:

1.875 inches

Overall Height:

0.313 inches

Overall Width:

0.300 inches

Mounting Hole Style:

Rectangular

Contact Material:

Beryllium copper

Contact Surface Treatment:

Gold

Accommodated Contact Quantity:

2

Polarization Type:

Contact position

Mounting Method:

Saddle

Mounting Type For Which Designed:

Chassis

Contact Position Arrangement Style:

In line

Precious Material And Location:

Contact surfaces gold

Precious Material And Weight:

0.010 gold grains, troy

Precious Material:

Gold

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02300
