#### Body Style:

Straight shape, internal coupling w/strain relief

#### Mating End Quantity:

1

## **Contact Position Arrangement Style:**

Afea 5 single mating end

## Contact Removability:

Removable single mating end single contact grouping

#### **Polarization Method:**

Key, multiple key groove

## Insert Position In Deg:

0.0

#### Shell Type:

Solid

#### **Connector Locking Method:**

Bayonet latch

#### **Connector Cable Strain Relief Method:**

Compression nut

#### **Terminal Location:**

Back single mating end single contact grouping

#### **Contact Material:**

Metal single mating end single contact grouping

#### **Terminal Type:**

Crimp single mating end single contact grouping

#### Shell Material:

Metal

#### **Included Contact Quantity:**

5 single mating end single contact grouping

#### Included Contact Type:

Round socket single mating end single contact grouping

#### Shelf Life:

N/a

# Unit Of Measure:

--

#### Demilitarization:

No

# Fiig:

A039b0

## Mil-std (military Standard):

Mil-c-55116 spec.
