Body Style:

Right angle type

Overall Length:

2.700 inches

Unthreaded Mounting Hole Diameter:

Between 0.093 inches and 0.098 inches

Distance Between Mounting Facility Centers:

2.500 inches

Mating End Quantity:

1

Insert Material:

Plastic polyamide single mating end

Insert Material Specification:

Mil-m-20693, type i military specification single material response single mating end or mil-m-20693, type iv a military specification single material response single mating end

Included Contact Quantity:

8 single mating end single contact grouping

Special Features:

Contacts numbered consecutively from left to right

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0

Mil-std (military Standard):

Mil-m-20693 spec.
