Special Features:

Material document and classification: zz-r-768 federal specification single material response ; hardness rating 50.0 durometer a min and 60.0 shore durometer a maximum ; cross-sectional height 0.734 in min and 0.766 in max; peripheral diameter 1.604 in min and 1.614 in max; contains 34 holes of various sizes

Material:

Rubber

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10100

Mil-std (military Standard):

Mil-c-24231 spec.
