Body Style:

Straight shape

Overall Length:

2.800 inches

Overall Height:

1.900 inches

Overall Width:

0.600 inches

Environmental Protection:

Shock resistant and moisture resistant and vibration resistant and corrosion resistant and pressure proof

Mating End Quantity:

1

Polarization Method:

Mating end

Connector Locking Method:

Friction

End Application:

5840-01-142-0378 radar equipment, except airborne

Insert Material:

Plastic diallyl phthalate single mating end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
