Overall Length:

4.000 inches

End Application:

Twin disc model tdc-20-2800

Component Quantity:

12

Component Controlling Agency:

Twin disc corp

Component Name:

Receptacle, box; connector; wire; lug, ring; terminal

Component Identifying Number:

221200-g part no. And m-2854 part no. And ma-420-a part no. And m-2995-b part no. And m-2851 part no.

Mounting Method:

Connector

Supplementary Features:

Soldered connections covered w/ polyolefin shrinkable tubing alpha fit 221-1/8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T389-b
