Overall Length:

8.820 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

4.490 inches

Overall Width:

Between 0.584 inches and 0.596 inches

Mounting Hole Circle Radius:

0.125 inches

Body Length:

8.375 inches

End Application:

F-15 aircraft

Contact Material:

Copper alloy single mating end single contact grouping

Contact Material Specification:

Qq-b-613, alloy 260 assn standard single material response single mating end single contact grouping

Shell Material:

Aluminum alloy 6061

Shell Surface Treatment:

Chromate

Shell Surface Treatment Specification:

Mil-c-5541 military standard single treatment response

Shell Material Specification:

Qq-a-250/11, tem t651 assn standard single material response

Product Name:

Connector, 5 row

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0

Mil-std (military Standard):

Mil-c-5541 spec.
