Body Style:
Straight shape
Overall Length:
1.570 inches
Overall Height:
1.040 inches
Overall Width:
0.320 inches
Unthreaded Mounting Hole Diameter:
0.100 inches
Board Accommodated Width:
0.100 inches
Mating End Quantity:
1
Contact Position Arrangement Style:
2 rows of contacts non-inserted board single mating end
Polarization Method:
Guide pin/socket
Shell Type:
Solid
Connector Locking Method:
Connector Locking Method: Latch
-
Latch
Latch Contact Material:
Latch Contact Material: Copper alloy single mating end single contact grouping
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping Precious Material And Location:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping Precious Material And Location: Contact surfaces gold
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping Precious Material And Location: Contact surfaces gold Precious Material:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping Precious Material And Location: Contact surfaces gold Precious Material:
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping Precious Material And Location: Contact surfaces gold Precious Material: Gold
Latch Contact Material: Copper alloy single mating end single contact grouping Contact Surface Treatment: Gold single mating end single contact grouping Shell Material: Aluminum alloy Included Contact Quantity: 16 single mating end single contact grouping Included Contact Type: Round pin single mating end single contact grouping Precious Material And Location: Contact surfaces gold Precious Material: Gold Supplementary Features: Mounting method - unthreaded hole
