End Application:

5895-01-285-2482 control-indicator, p-3a/b/e acft

Component Quantity:

16

Component Controlling Agency:

Sci systems, inc

Component Name:

Connector interface assembly

Component Identifying Number:

C-11736/agc- (v) model no.

Mounting Method:

Screw

Special Features:

Components include printed wiring board 1, plate base 1, 18 pin connector 2, diodes 4, transformer 4, 41 pin connector 1, 20 pin connector 2, 40 pin connector 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-b
