Body Material:

Glass, epoxy

Overall Length:

0.900 inches

Overall Width:

0.400 inches

Contact Material:

Beryllium copper

Contact Surface Treatment:

Gold

Accommodated Contact Quantity:

18

Contact Position Arrangement Style:

Dual in-line

Special Features:

Capacitor 0.100 microfarad

Precious Material:

Gold

Terminal Type And Quantity:

18 printed circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02300
