Overall Length:

2.680 inches

Center To Center Distance Between Mounting Facilities Parallel To Length:

2.187 inches

Center To Center Distance Between Mounting Facilities Parallel To Width:

2.187 inches

Overall Height:

0.875 inches

Overall Width:

2.680 inches

Unthreaded Mounting Hole Diameter:

0.172 inches

End Application:

Aircraft model ha-1w

Mounting Facility Type And Quantity:

5 unthreaded hole

Special Features:

1 hole off ctr 0.200 in. Deep for helicoil, 2 holes off ctr drill through 0.141 in. Dia. And s'bore farside 0.312 in. Diameter x 0.138 in. Deep, taper ream, 3 holes in side 0.187 in. Dia.; materials per mil-p-15035, type fbe; components include electric fitting 1, buss bar 1, heli-coil 2, connector 2, contact pin 2, contact nut 2, "o" ring - n602-7 2

Material:

Plastic, diallyl phthalate

Material:

Plastic diallyl phthalate

Style Designator:

Square shape

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A10100
