Body Style:

Round shape, center jackscrew

Overall Length:

1.375 inches

Radio Frequency Type Contact Characteristic Impedance In Ohms:

75.0 single mating end single contact grouping

End Application:

Lgm030g

Shell Material:

Copper alloy

Special Features:

Insulation resistance 5000megohms, dielectric voltage 1500vac

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
