End Application:

Fy92arc/amc (98897)

Component Quantity:

2

Usage Design:

Used on an electrical winch

Mounting Configuration:

A connector attached to a switch via a wiring harness

Component Controlling Agency:

Able corp

Component Name:

Connector assembly, elec

Component Identifying Number:

28318 drawing no.

Mounting Method:

Plug-in

Special Features:

The connector is a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
