End Application:

Esm door assembly, cage 03538

Component Quantity:

11

Mounting Configuration:

Long slender weldment consisting of 8 connectors mounted to individual slots

Component Controlling Agency:

Martin marietta corp

Component Name:

Connector housing assembly

Component Identifying Number:

77c958910 drawing no.

Mounting Method:

Rack

Special Features:

Altered from p/n 900-22757, nsn 5935-01-414-2580; alter connector housing assembly by replacing cables (find no. 2-6); install gasket (find no. 7) into groove (find no. 1); splice end of gasket (find no. 7) using adhesive (find no. 12)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T389-b
