End Application:

Rib's loose e, aircraft, b-2 bomber (atb)

Component Quantity:

3

Component Controlling Agency:

Northrop grumman corp, military aircraft systems division

Component Name:

Electrical connector

Component Identifying Number:

Daa3298+303-103 drawing no.

Mounting Method:

Connector

Special Features:

Longest cble length 6.000 inches with a connector at each end, at the 3.000 inch mark, a 3.000 inch cable with a connector is attached

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-b
