Body Style:

Angle shape, w/o cable clamp

Overall Diameter:

0.625 inches

Body Angle In Deg:

90.0

Mating End Quantity:

1

End Application:

Radar homing warning receiver

Distance From Centerline To Connector End:

1.730 inches

Distance From Centerline To Cable End:

1.340 inches

Shell Material:

Steel

Shell Surface Treatment:

Passivate

Special Features:

Contact material beryllium copper with woods nickel under plate gold plate finish; dielectrics polytetrafluoroethylene

Precious Material And Location:

Contact finish gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
