Body Style:

Straight shape

Mating End Quantity:

1

Contact Removability:

Removable single mating end all contact groupings

Contact Maximum Current Rating In Amps:

8.0 single mating end all contact groupings

Connector Locking Method:

Push-pull

End Application:

Chassis, weapon, full tracked

Operating Temperature Rating:

Between -40.0 degrees fahrenheit and 221.0 degrees fahrenheit

Contact Material:

Copper alloy single mating end all contact groupings

Contact Surface Treatment:

Tin single mating end all contact groupings and lead single mating end all contact groupings

Terminal Type:

Crimp single mating end all contact groupings

Special Features:

18-20 awg wire range size; contact type: crimp; mating life 50 cycles ; operating voltage 400 vac max.

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
