End Application:

Alm-292.

Component Quantity:

9

Component Name:

8 connectors with rack mount.

Special Features:

IEEE-488 bus strip (tm) is a distribution panel for GPIB/HP-IB system cables. The bus provides eight parallel IEEE-488 bus connectors on an easily mounted bus strip. It is fully compatible with all IEEE-Std 488.1-1987, HP-IB and GPIB specifications. The low capacitance signal distribution path does not degrade the performance of the highest speed bus systems.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
