Overall Length:

1.320 inches

Overall Height:

0.394 inches

Overall Width:

0.248 inches

Special Features:

Copper alloy contact material; 1 amp current rating; beige insulation; ul94v-0 insulation flammability rating; glass filled polyester insulation material; mini delta ribbon receptacle interface style; m2.5 panel, m2.5 and posts board; 2 contact rows; 20 contacts; surface mount termination method; printed circuit board termination style; 500 vrms withstanding voltage at sea level

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-b
