Body Style:

Straight shape, rectangular

Overall Length:

22.6 millimeters

Overall Height:

23.8 millimeters

Overall Width:

15.4 millimeters

Mating End Quantity:

1

Contact Position Arrangement Style:

2 rows of contacts non-inserted board single mating end

Polarization Method:

Polarization rib

Shell Type:

Solid

End Application:

Mk 31, truck, tractor, 7-ton, w/o winch, 2320-01-530-5693, mrap-matv fov

Features Provided:

Spring loaded contact

Shell Material:

Plastic

Product Name:

Coupling connector

Special Features:

Nha is wire harness, p/n 3573678; housing is white; female housing with double row 5 x 5 mm staggered pitch; mechanical polarization; ; for 2.8 mm terminal; temperature range is minus 40 degrees cel to 105 degrees cel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
