Overall Length:

3.500 inches

End Application:

Mk16mod0, underwater breathing apparatus (nsw)

Component Quantity:

3

Component Controlling Agency:

53711

Component Name:

Connector, plug, electrical (1); terminal, lockwasher (2)

Component Identifying Number:

7653312-1 part no. And 7653445-1 part no.

Special Features:

Consists of connector plug soldered to 1 length of m16878/1bde2: red, stranded, 26awg, insul. Electric wire and 1 length of m16878/1bde0: black, stranded, 26awg, insul, electric wire with heat shrinkable insulation sleeving and a connector hood and connector retainer

Supplementary Features:

Dwg calls this: sensor connector assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T389-b
