Overall Length:

1.435 inches

Overall Height:

0.629 inches

Overall Width:

0.361 inches

End Application:

Aim-9x sidewinder training missile, (catm) (fms)

Component Quantity:

1

Component Name:

Micro-d metal shell

Special Features:

51 contacts; gender is plug, pin contacts; shell finish is cadmium; termination is tin plated copper; wire color is solid copper; wire length is 0.140 in, nom; shell material is alluminum; current rating is 3 amps max; temp rating is -55c to +125c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-b
