Mating End Quantity:

1

Contact Maximum Current Rating In Amps:

15.0 single mating end single contact grouping

Contact Maximum Ac Voltage Rating In Volts:

125.0 single mating end single contact grouping

Connector Locking Method:

Push-pull

End Application:

Nsn 5895-01-526-8477; data analysis central

Terminal Location:

Back single mating end single contact grouping

Shell Material:

Rubber synthetic

Included Contact Quantity:

3 single mating end single contact grouping

Special Features:

Watertight high-visibility straight-blade connector, female have one-piece snap-on cover, accommodate .312 inch to .625 inch diameter cords and have a two-pole three wire design (3 blades)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
