Body Style:

Straight shape, round

Threaded Device Type:

Coupling facility

Polarization Method:

Contact

Connector Locking Method:

Spring friction and internally threaded coupling nut

End Application:

Hostile environments

Shell Material:

Aluminum

Shell Surface Treatment:

Cadmium and chromate

Included Contact Type:

Round socket single mating end all contact groupings

Product Name:

Plug connector

Special Features:

Coupling nut with anti-decoupling wave spring; shell size-4; inseret arrangement number 23 contacts; contact type-socket; shell key position-normal; knurled round plug with accessory thread; series 800 plug connector

Color:

Olive drab

Supplementary Features:

Watertight when mated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
