Overall Diameter:

Between 1.4 millimeters and 2.7 millimeters

Voltage In Volts And Current Type:

24.0 dc

Product Name:

Solder sleeve shield terminators

Material:

Thermoplastic

General Description:

Bialloy temperature indication-the heat shrinkable sleeve contains a precisely engineered fluxed solder band that is visible through the sleeve (white with a black stripe)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
