Mating End Quantity:

1

Contact Material:

Beryllium single mating end single contact grouping

Shell Material:

Plastic diallyl phthalate

Product Name:

Connector, electrical, plug, rectangular, latch coupling, lighting

Special Features:

Contact retention clip made of beryllium copper alloy; grommet made of silicone rubber; and latch made of 15% glass fill polybutylene terephthalate; contact type is socket

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A039b0
