Electrical Receptacle Connector - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5935-01-591-0976

Mating End Quantity:
1
Connector Locking Method:
Friction
Radio Frequency Type Contact Characteristic Impedance In Ohms:
50.0 single mating end single contact grouping
Terminal Location:
Back single mating end single contact grouping
Contact Material:
Copper alloy single mating end single contact grouping
Contact Surface Treatment:
Gold single mating end single contact grouping
Terminal Type:
Printed circuit single mating end single contact grouping
Shell Material:
Plastic
Included Contact Quantity:
1 single mating end single contact grouping
Product Name:
Printed circuit board jack
Precious Material:
Gold
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A039b0
