Special Features:

Interface: n male, body style: right angle, connector impedance: 50 ohm, operating freq band: 0-10200 mhz, rf operating voltage: maximum (vrms) 707.00v, insulation resistance: 0.6 kw @ 900mhz, peak power max: 10.00kw, insertion loss: 0.05db, outer contact plating: trimetal, inner contact plating: gold/silver, height: 1.830 inch, length: 2.510 inch, right angle length: 0.870 inch , width: 0.960 inch, weight: 0.35 lbs, end item: radio station, transportable

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A039b0
