Overall Length:

2.0 inches

End Application:

Threat emitter

Component Quantity:

10

Component Name:

Receptacle assembly

Mounting Method:

Clip

Special Features:

The contact material is phosphor bronze with gold over nickel plating. Accepts size 22 - 26 awg wire. Has crimp type terminals. The current rating is 3 amps. The contacts are socket type. The housing is black thermoplastic. The operating temp is minus 65 degrees to 105 degrees celcius.

Precious Material And Location:

Contact plating gold

Precious Material:

Gold

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T389-b
