Usage Design:

Application: electrotechnology, pneumatics, hydraulics, robotics, general machine and plant construction

Component Name:

Feed through for all prefabricated cables and wires with connectors

Component Identifying Number:

Vgo type no.

Mounting Method:

Any acceptable

Product Name:

(inavy) blank, gland plate

Special Features:

Flame retardant; aluminum or polymide gf30 with additional inner brass reinforcement; 2 module sizes with slot and suspension principle; ip65; unused holes can be sealed with blank plugs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T389-b
